

## **DIY Bike Registration**

Bike registration is the way to prove that you own your bike. You don't need an official registration program to do that – you can do it yourself with this form. If your bike is stolen or damaged, the following information will be essential for filing a police report or an insurance claim:

Serial number		Brand of bike			
Model		Year			
Frame size			Wheel size		
Number of gears		Color(s)			
Type of bike	Mountain Recumbent	Road BMX	Fixie Cargo	Cruiser Other:	Hybrid
Handlebar	Straight Other:	Dropped	Sprint	Mustache	
Brakes	Hand	Foot (coaster)			
Special identify	ying marks and ch	aracteristics, tric	ck parts, etc.:		

Store this document in a secure place you can get to easily. For example, take a photo of the completed form and store it on your phone, online (e.g., Google Drive), etc.

Keep your bike safe by knowing the best practices for preventing thefts. Learn more at <a href="https://sacbike.org/resources/protect-your-ride/">https://sacbike.org/resources/protect-your-ride/</a>
